

Actuaries
Risk is Opportunity.

2013 ANNUAL ACTUARY DAY

UNIVERSITY OF CALIFORNIA SANTA BARBARA

Actuaries
Risk is Opportunity.

WHAT?

Actuary Day is a day where students have the opportunity to gain insight on the actuarial profession and field from a vast network of Actuarial Professional from across the country, including some of our very own alumni.

APRIL 26TH (11:00AM - 12:15PM) at HSSB 1174

WHO?

An Actuary analyzes the financial cost of risk and uncertainty. The use mathematics, statistics and financial theory to assess the risk that an event will occur and to help businesses and clients develop policies that minimize the cost of that risk.

WHY?

According to the Wall Street Journal, an Actuary is the second best profession out of the 200 studied. With a median salary of over \$80,000 a year and a steady demand for actuaries even during tough economic times .
