

The Finance Connection

University of California, Santa Barbara

Placing Gauchos on Wall Street

In Search of an Internship or Job in Finance?

The UCSB Finance Connection is a student-run organization aimed at helping students attain jobs in the various verticals of finance. Our club, in conjunction with the UCSB Economics Department, Career Connection, and Career Services, is pleased to invite you to attend Local Finance Night. The event will consist of a panel presentation, followed by a networking session where students will have the opportunity to network and meet the representatives. This is an excellent opportunity for those looking to break into the finance industry and get their foot in the door with a local internship or full-time job. There will be representatives from local investment banks, hedge funds, investment managers, financial advisors, commercial banks, and real estate finance firms.
