Data Hack 2022
Application

Description

The UCSB Department of Economics recognizes the growing need for proficiency in data analytics in the workforce and for undergraduates to be able to participate in research. To supplement students' coursework, the Department will be offering **Data Hack 2022: Data Analytics Boot Camp & Hackathon**.

You can earn one 199RA course credit if you are selected to participate and there are cash prizes for winners. The competition will be judged by a panel of faculty and people from industry.

Students will…

- Learn to work with data in programming language **R**
- **Build their resumes** with a desirable and applicable skillset
- Prepare for **research opportunities** with professors
- Apply the skills learned in a competition with **cash prizes**

Qualifications

- Must be in either the **Economics** or **Economics & Accounting** majors
- Must complete **ECON 140A by December 20, 2021** to participate
- Must **complete** Boot Camp in order to participate in competition
    - **Fridays from 3-5pm during the first 7 Fridays in winter quarter 2022**
    - **Saturday February 26**, 10 AM – 5 PM (Competition)

To apply, you will need:

- This Form , Resume, and Unofficial Transcript
